Business & Operations: Operations Support, Process Improvement, Stakeholder Communication, Documentation, Report Writing, Problem Solving, Attention to Detail, Client Communication

PROFESSIONAL EXPERIENCE

Learning Experience & Program Coordinator | *BrightMinds Online School*

October 2024 — April 2026

Markham, ON

- Maintained student, attendance, progress, enrolment, and program records to support accurate reporting and daily operations.
- Used Excel and digital systems to track student progress, verify records, identify missing information, and support internal decision-making.
- Analyzed student and program data to identify trends, documentation gaps, follow-up needs, and service delivery issues.
- Prepared reports, updates, and written summaries for families, staff, and internal planning.

Operations & Data Coordinator | *Websites for Small Businesses*

Jan 2021 – May 2023

Greater Toronto Area, ON

- Built Excel-based tracking systems to organize client requests, project updates, timelines, and deliverables.
- Collected, entered, validated, and organized information from multiple sources with strong attention to accuracy.
- Prepared reports, summaries, and documentation to support client communication and project decisions.
- Improved workflow efficiency by 50–60% through clearer tracking, documentation, and follow-up systems.

Part-Time Supervisor | *Tim Hortons*

Sept 2015 – Oct 2022

Hamilton, ON

- Supervised staff in a high-volume customer service and operations environment.
- Resolved customer concerns, order issues, and daily operational problems professionally.
- Supported staff training, task delegation, workflow coordination, and service quality.

PROJECTS — DATA ANALYSIS & DASHBOARD PORTFOLIO

GTA Housing Market Dashboard & Policy Brief

Tools: Excel, Tableau, Power BI, data visualization, policy analysis

- Analyzed GTA housing data related to pricing, supply, sales activity, affordability, and regional market trends.
- Created dashboard visuals and summaries to compare housing trends by location, time, and market conditions.

Ontario EQAO Dashboard

Tools: Power BI, Excel, education data analysis

- Organized and analyzed Ontario education data related to student achievement and school board performance.
- Created visuals and insights comparing outcomes across boards, grades, subjects, and time periods.
